

THE THAMES VALLEY – A HUB FOR ISRAELI BUSINESS

ARLINGTON
BUSINESS
PARK

A HUB FOR ISRAELI BUSINESS

Israeli investors have invested £188 million into the following technology companies since the start of 2016, all based in the South East: Kaminario, Stewart Plastics, Zerto, ECA Services, Agalimmune, SatixFy and Dynamic Yield.

97% of the £188 million invested from Israeli investors has been into information and technology companies, with the balance into healthcare and materials & resources. The information and technology companies have mainly been focused on storage (IT), systems and information management, application specific semiconductors and business/productivity software.

The Thames Valley truly is a cluster for Israeli tech business and **Arlington Business Park** in Theale is an exceptional home for business to thrive.

Notable businesses located within and near to Arlington Business Park include:

Zerto

Zerto Ltd provides enterprise-class disaster recovery and business continuity software for virtualized infrastructure and cloud environments. It is dual-headquartered in Israel and the United States.

TIS provides organizations around the world with technology to automatically transform their incoming business content into useful, digital data delivered directly into their business applications.

CYREN

Cyren Ltd is a cloud-based internet security technology company providing threat detection and security analytics such as spam classifications, URL categorization, and malware detection.

Inomize is a fast-growing R&D company and the largest ASIC design firm in Israel. Its customers range from startup companies to large international corporations based in Israel, Europe and North America.

CATO

Cato Networks builds cloud-based software-defined WAN. Cato Cloud connects data centres, branches, mobile users and cloud infrastructure into a unified, secure global network.

Top brands use Dynamic Yield to increase engagement and revenue via personalization, recommendations, automatic optimization & 1:1 messaging.

TOWER

SEMICONDUCTOR LTD.

Tower manufactures integrated circuits for major semiconductor companies such as Avago, Fairchild, Panasonic, Texas Instruments and Vishay.

Radware is a provider of load balancing and cybersecurity services for data centres. It is dual-headquartered in Israel and the United States.

SatixFy is a leading provider of baseband modem and antenna SoC ASICs, development platforms and solutions. It is a pioneer in designing advanced satellite payloads with on-board-processing, multi-beams and VSATs systems.

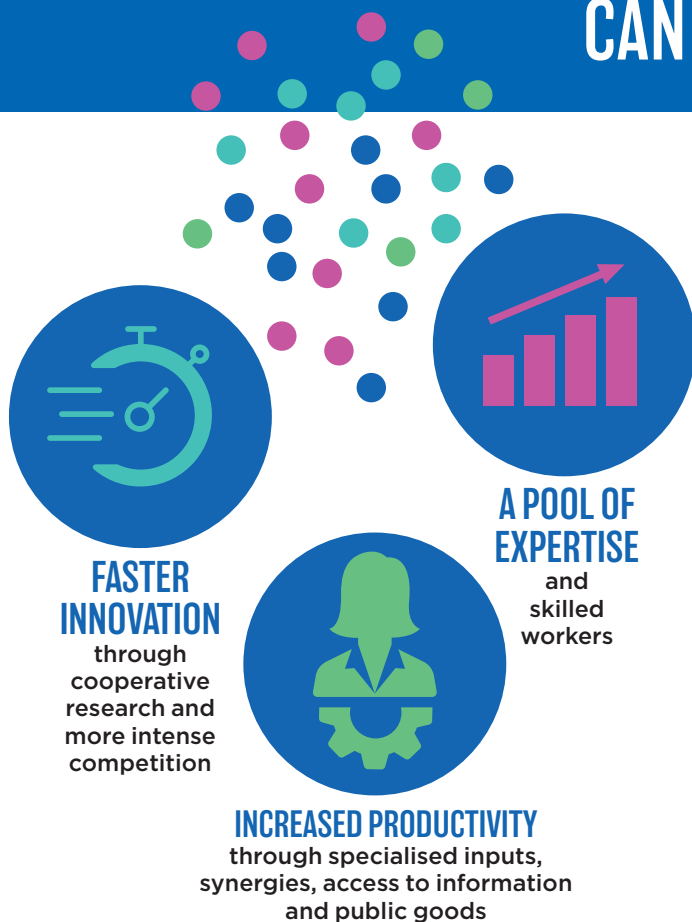

Extricom is the designer and manufacturer of an award-winning enterprise wireless LAN system for providing converged data, voice, and video services over wireless with the dependability and performance of the wired network.

Panaya is an Israeli software company, a subsidiary of Infosys. Its products include change impact analysis, ALM acceleration, automated code remediation, collaborative test management and test-execution.

A WELL-DEVELOPED CLUSTER OF RELATED BUSINESSES CAN PROVIDE IMPORTANT ADVANTAGES

ARLINGTON BUSINESS PARK

READING RG7 4SA

Arlington Business Park has been named as one of the UK's Data Hotspots and recently won an award for innovation.

The strength of Arlington Business Park has been reflected in the quality of leading technology occupiers who have decided to establish themselves on the park in the grade-A office buildings and stunning environment.

Leading global technology occupiers including Elemental Technologies, CTIL, Koch Media Black Duck, Zerto, Panaya and Arrow ECS have all recently moved to the park and we believe that Israeli technology businesses would be able to realise synergies by co-locating.

Flexible Grade A office space available from 2,500 to 35,000 sq ft

ACCESS TO OUTSTANDING PARK AMENITIES, INCLUDING:

On-site café

Gym with showers and changing facilities

Floating pavilion meeting room
